SUMMARY

Flutter developer with nearly four years of experience building production mobile applications for government, healthcare, fintech/donation, and community clients. Strong understanding of Flutter, expertise in state management, clean architecture, and REST API integration — ready to deliver efficient, maintainable solutions for mobile application development.

SKILLS & HIGHLIGHTS

Hard Skills: Dart, Flutter, Provider, GetX, BLoC, Riverpod, Dependency Injection, Clean Architecture, REST API Integration, Firebase, Bitbucket Pipelines, Figma

Soft Skills: Communication, Leadership, Time Management, Adaptability, Problem Solving, Teamwork, Creativity

Highlights: Contributed as Flutter developer to 4 production apps live on Google Play and the App Store — including Pusaka, the official super app of Indonesia's Ministry of Religious Affairs, with 1M+ downloads on Google Play; products rated 4.9/5 (HAYYU Doc) and 4.8/5 (CUIIT: Community Enabler) on the App Store; delivered payment-critical flows (Virtual Account / payment gateway for digital ZIS donations) and real-time features (chat and video teleconsultation); nearly 4 years of continuous mobile delivery at a single product house, hands-on across 4 state-management stacks (Provider, GetX, BLoC, Riverpod) with clean architecture and dependency injection.

WORK EXPERIENCE

Mobile Developer — PT Venturo Pro Indonesia

Aug 2022 - Present | Malang, Jawa Timur | Full-Time

- Build and maintain production Flutter applications for government, healthcare, fintech/donation, and community clients as part of a professional software team.
- Implement assigned feature modules and reusable UI components with clean architecture and dependency injection.
- Integrate REST APIs and payment-gateway flows, and manage application state across multi-step user journeys.
- Collaborate with designers and backend engineers, and support release builds through Bitbucket Pipelines.

PROJECTS CONTRIBUTION

Pusaka Super Apps

Ministry of Religious Affairs (Kemenag) | 1M+ downloads on Google Play
Official super app integrating nationwide religious and public services: digital holy books, prayer times, qibla direction, hijri calendar, marriage registration, and halal certification. Contributed Flutter feature modules in a large multi-module codebase.

Hayyu Apps

Hayyu Skin Clinic | Google Play and App Store
Women-only beauty clinic platform with doctor teleconsultation (chat and video call), treatment reservations, and history/progress tracking. Built assigned screens and booking/consultation state flows.

Lazisnu Apps

NU Care–LAZISNU (Nahdlatul Ulama) | discontinued from stores
Digital Zakat, Infaq & Sedekah platform handling Zakat Maal, Zakat Fitrah, Infaq/Sedekah, Fidyah, and Qurban. Developed multi-step donation flows and payment-gateway / Virtual Account integration.

CUIIT: Community Enabler

Internal community product | Google Play and App Store
Community engagement platform with missions/tasks, interactive content, real-time chat, and rewards. Built community feeds, real-time chat UI, and mission/reward flows.

EDUCATION

Bachelor of Technology (S.Kom.)

Institut Teknologi Dan Bisnis ASIA Malang | Sep 2018 - Aug 2022

Store figures as of Jul 2026. All products delivered as a team contributor at PT Venturo Pro Indonesia.
